

Moraine Valley Community College

BNAT

Basic Nursing Assistant Training

The Basic Nursing Assistant Training (BNAT) program prepares students to work in the health care industry as a Certified Nursing Assistant (CNA). With this certificate you can go onto a Nursing Program to further your career. The BNAT program begins in spring 2025 on the Moraine Valley campus, with lecture and lab sessions Monday through Thursday from 1 to 3:15 p.m., along with four to five clinical sessions. Clinicals are on Saturdays and Sundays, typically lasting about 8-10 hours. Students are responsible for transportation to Moraine Valley and clinical sites. Successful completers will receive seven college credits and qualify for the Illinois State Competency Exam as early as June 2025. Moraine Valley's Basic Nurse Assistant Training Program is approved by the Illinois Department of Public Health (IDPH).

All nursing student applicants must successfully complete the Basic Nurse Assistant course with a "C" grade or better by the end of the semester of application. The Basic Nurse Assistant certification can be in progress at the time of the submission of nursing application.

- Become skilled at taking blood pressure, pulse and body temperature
- Practice daily patient care techniques
- Learn to provide care for an elderly person
- Discover how you can become a member of a health care team

Dual Enrollment – High school students can earn college credit through dual enrollment. Students can enroll in the course which meets at Moraine Valley while still in high school. Authorization from the high school is required.
